

Trauma Nurse + Trauma Registrar Network Meetings

2006-2007

Trauma Nurse + Trauma Registrar Network (TN+TRN) is an informal organization of the trauma program managers, trauma registrars, and interested parties in the Washington State and Oregon State Trauma Systems.

We meet three times a year, at rotating sites, often on dates and locations adjacent to Washington State Emergency Nurses Association meetings. (see www.wa-ena.org). There is no cost to attend TNTRN. TNTRN meeting announcements and registrations form are sent out several weeks in advance to all trauma program managers and trauma registrars in Washington and Oregon.
